DURABLE INSULATION MATERIAL

SOFT SPAWORLD AQUA CENTER

- 1 The appearance of the material is Marine grade vinyl, with superior weather resistance and durability.
- 2 Latest state of the art, quiet and quality molded foam shell for thermal and acoustical efficiency.
- 3 The air switch can adjust the intensity and pattern of the massage water flow, allowing users to enjoy 3 different massage experiences and achieve a relaxing effect.
- 4 5m power cord allows placement of your LEGACY in almost any location, Plugs in to any standard 220/240 Volt 10 Amp house-hold plug.
- 5 Blue Tooth & Wi Fi & Music for your convenience and easy operation and control. Easy Set up and enjoy being fully connected with your Legacy Spa. Temperature changes, Light changes, any operational changes and any info's easily available and controllable at your fingertips – so the modern state of the art.
- 6 Incorporates Soft Spaworld's Smart Chip that monitors electricity and will shut off the tub automatically to protect your investment if ever needed for any specific technical reason. It also memorizes all the preset temperatures.
- 7 UV sterilization system can efficiently sterilize and purify water through ultraviolet irradiation, making water safer and hygienic.
- 8 Bluetooth music function, with easy installed bluetooth technology you can connect to any other audio device like your smart phone or such and you can enjoy your favorite music at a very good sound level. [Speaker is high grade waterproof of course].
- 9 The dual Fast seal Connecting System by hand (no tools needed) is easy to install and allows also automatic draining and shutting off the water circulation totally whenever needed and wanted. Additionally, this is also an easy way to install the optional external heat pump with the connecting By Passes.
- 10 The 2 speed Pump is not only efficient but also quiet and ecological. It provides High power Hydrotherapy and also allows energy efficient, quiet and fast heating.
- 11 A 2000 Watt Heater provides very fast heat up and is very energy efficient and is maintaining the heat while you are using the spa (at normal outside temperatures).
